

Safety in the Digital Revolution

Speaker: Rick Fineman, BHHCy

In the keynote session about “Safety in the Digital Revolution,” we’ll discuss how to keep people and things safe in our digital world. We’ll look at ways to protect against online threats and make sure that new technologies are used in a responsible and secure manner. You’ll learn about the latest strategies and issues in the digital world to help create a safer online future.

Rick is a seasoned occupational safety and risk management professional with substantial experience working across a broad range of industries. He brings a depth of leadership and knowledge to our lineup. He has a breadth of experience and talent with risk management programs.
